My dear Edith:

I'm going to put this note in with our greetings to let you know that we would enjoy nothing more than to receive a letter from you New Years morning,

We have not had your address for the longest time, and every time we are at Archie's we have forgotten it, until this morning I called him up on purpose to get it.

His note is a long letter and tell us how you are getting along and how the children are - how many? And how is our little Jack? It seems an age since we have had a line from you.

We are expecting Estella & Charlie the little curlyhead and Grace and her husband to spend Christmas with us. Estella has been inquiring about you & wanting your address, too.

Estella is living on an acre & a half 18 miles from Detroit - Birmingham, Mich. & Grace is on the south side of town.

Mother has been pretty well until a week ago when she was again threatened with erysipelas fever but

unless you could walk in yourself

is better again altho' she hasn't been out yet. Harold is in his first year at Adelbert College. He is working afternoons in order to pay his tuition, and Ara is working every day to try to keep the ball a-rolling. hahaha!

I am no longer with the Clements. They practically went out of business, but I still have W.H.'s real estate to look after. If you borrowed money from W.H. or H.L. they don't remember it. So I'd forget it, too. H.L. who lived next to Sholders on Kensington has been dead about 7 years & W.H. who lived nearer Euclid on Kensington didn't seem to remember your name, nor his wife either, so I'd forget too.

I was over to Archie's yesterday evening. They are all pretty well & look quite well in their new quarters. Helen is a dear little girl - she calls me her girl; and George is a "whapper".

If the family knew I was writing they would all join in sending their love and good wishes. May you all have a very enjoyable Christmas and a happy & prosperous New Year.

With love.
Ara -
